

# E12517

## Target puck for valve actuators

PUCK 53MM BASIC

### Application

|        |                                                                                                                  |
|--------|------------------------------------------------------------------------------------------------------------------|
| Design | for mechanical interfaces to pneumatic actuators or manually-operated valves VDI / VDE 3845, ISO 5211 / DIN 3337 |
|--------|------------------------------------------------------------------------------------------------------------------|

### Mechanical data

|                               |                                                       |         |
|-------------------------------|-------------------------------------------------------|---------|
| Weight                        | [g]                                                   | 60.5    |
| Target puck diameter          | [mm]                                                  | 53      |
| Hole spacing                  | [mm]                                                  | 80      |
| Shaft height of actuator stem | [mm]                                                  | 30      |
| Material                      | Target puck: PA 6 black; metal parts: stainless steel |         |
| Tightening torque             | [Nm]                                                  | 2.5...3 |

### Accessories

|                |                                                          |
|----------------|----------------------------------------------------------|
| Items supplied | half-round head screw: 1 x (M6 x 16 mm), stainless steel |
|----------------|----------------------------------------------------------|

### Remarks

|               |        |
|---------------|--------|
| Pack quantity | 1 pcs. |
